    - Responsive design, modals, and touch interaction
    - AJAX & JSON
    - Version control (Git)
    - Test & Behavior-Driven-Development (Unit testing, integration testing, acceptance testing & end-to-end testing)
    - Functional & object-oriented programming
    - Mobile Apps (React Native) & Chrome Dev Tools

- Back End Web Development
    - Node.js & Express
    - APIs (JSON, RESTful, Postman)
    - Hosting & Web Services (AWS, Heroku, Netlify)
    - Relational & non-relational databases (MongoDB, PostgreSQL)

EXPERIENCE

Staples, Canada • Area Asset Protection Manager   (05/2022) - (05/2023)

Coached, trained, and developed management teams to be the best they can be operationally. Visited locations finding and closing risks, minimizing loss & ensuring the safety of customers & employees. Regularly conducted & successfully closed investigations into external and internal theft & fraud.

Rexall Drugs, Western Canada • Regional Loss Prevention Manager   (05/2015) - (05/2022)

Successfully developed and evaluated an online company audit program with real time results and online action plans with real time notifications resulting in a 200% increase in completed audits and corrected actions. Regularly conducted & successfully close investigations into external and internal theft & fraud.

Target, Canada • Field Investigator   (03/2013) - (05/2015)

Certified trainer of store teams on the effective use of surveillance equipment, internal case development, internal interviewing, apprehensions & non-violent interventions. Led eighteen stores to produce the top results in the country.

Best Buy/Future Shop, Canada • District Loss Prevention Manager   *(01/2004) - (03/2013)*

Trained and coached Managers to successfully control inventory and build the engagement of their people to ensure productive and open communication to be a low shrink & profitable stores going forward. Frequently conducted & successfully closed investigations into external and internal theft & fraud.

Bata Shoes & Athletes World, Canada • District Manager   *(06/1995) - (01/2001)*

Led a team of 17 locations with 17 direct reports with over 250 team members across British Columbia to successfully achieve sales and profit growth targets annually.

WEB DEVELOPMENT PROJECTS

Meet App
Personal project, CareerFoundry, April 2023
Developed a progressive web application (responsive, cross platform, offline available and ability to add to home screen) using React to display events from a google calendar. Followed test-driven-development (TDD) approach, translating user stories into scenarios for unit and integration testing (Jest), acceptance testing (Cucumber) and end-to-end testing (Puppeteer). Implemented serverless functions (AWS Lambda) to authenticate & authorize users (OAuth).

Meet App demo — Meet App GitHub repo

The Movie App
Personal project, CareerFoundry, February 2023
Created a non-relational database (MongoDB) of top movies and related data. Built a REST API with Node.js and Express, using Mongoose to interact with the database. Tested the API endpoints with Postman, wrote clean and concise documentation, deployed with API Heroku. Created two single-page, responsive front-end applications using React and Angular. Users can create accounts, browse the library, and save favorites.
